

Child day care

Springboard offer "learning bridge" - trust as the basis of a successful cooperation

Accordingly, we are also committed to children with experience of getting away. Since 2015 we have been involved, among others. in the common accommodation of the AWO - Refugium book, Groscurthstraße 29-33 in 13125 Berlin (Pankow). In addition to supporting elementary things, it is important to us that children can arrive here in Germany. Children need age-appropriate learning, play and experience for a positive development. The kindergarten is ideal for this, but currently not every family finds a day-care center. For this reason, we try to offer a "learning bridge". The offers take place daily from 9:00 am to 3:00 pm. A variety of free and guided offerings promote preschool children in their emotional, cognitive, motor and social skills. Each child should be provided according to his abilities and skills differentiated play and work material. This allows children to explore, promote and contribute their skills and abilities. In addition, we participate together in joint excursions and projects of the partner day-care centers. Our offer, which has already proven itself since 2015, is aimed at children between the age of 3 years until school introduction (also school backers).

In addition, we participate together in joint excursions and projects of the partner day-care centers. Our offer, which has already proven itself since 2015, is aimed at children between the age of 3 years until school introduction (also school backers).

To the educational concept:

- Family breakfast for exchanges between families, help and counseling in the event of problems in education and everyday situations, assistance in applying for a kitaplatz
- Children get to know regular and daily structures in the day-care center
- common learning of preschool children as a signal for "togetherness and acceptance" among themselves
- Joint excursions, organization of festivals and children's birthday parties
- Learning and experimenting workshop in the kindergarten in the countryside
- holistic language support (stimulating language through various materials such as puppet and role-playing games, table and movement games, books and CDs)
- Development of sentence-forming ability and rhythmic speech (nursery rhymes, children's songs, role-plays)
- Family-oriented literacy and language promotion
- Mathematical Early Intervention (quantity comprehension, numbers and forms are recognizable, for example, dice and number games, experiments with water, weights, etc.)
- Kreativwerkstatt (creative design with different materials / parents and children have the opportunity to creatively redesign their area of life through self-made products)
 - Workshop 1 - Meeting of cultures (art therapist)
 - Workshop 2 - Brush party
